NEW MAA STUDENT CHAPTER

SCHOOL INFORMATION
Institution Name: __________________________________________________________________________________________________________________________________________
Address: __________________________________________________________________________________________________________________________________________________
City/State/Zip Code/Country: ______________________________________________________________________________________________________________________________
Math Dept. Director: ____________________________________________________________ E-Mail: __________________________________________________________________
Phone: ___________________________________________________________________________ Fax: ____________________________________________________________________

CHAPTER ADVISOR INFORMATION
Chapter Adviser/Title: _____________________________________________________________________________________________________________________________________
E-Mail: ___________________________________________________________________________ Phone: _________________________________________________________________

REQUIREMENTS FOR STUDENT CHAPTER
MAA Student Chapters are intended primarily for full-time undergraduate students. However, it is recognized that deviations from this guideline may be appropriate for some institutions, so the ultimate decision on the eligibility for membership will be left to the faculty adviser. However, “interest” should be the primary qualification for membership – academic record or other criteria that would tend to make the Chapter an “honorary” group may not be considered.

There is no cost to start a student chapter, but your chapter’s students must be active members of the MAA. An undergraduate student membership is $30 annually and includes electronic access to MAA FOCUS, the association’s newsmagazine, Math Horizons magazine, The College Mathematics Journal, and Mathematics Magazine. Students can learn more about this membership and join by visiting http://www.maa.org/membership/undergraduate.html.

STUDENT MAA MEMBERSHIP VERIFICATION
Please list below all student members who will be participating in your student Chapter. Provide a name, valid e-mail address, and note which type of membership each student is currently receiving; leave blank if unsure.

#1: Name: __________________________________________ Email: ________________________________ Undergrad ☐ Grad ☐
#2: Name: __________________________________________ Email: ________________________________ Undergrad ☐ Grad ☐
#3: Name: __________________________________________ Email: ________________________________ Undergrad ☐ Grad ☐
#4: Name: __________________________________________ Email: ________________________________ Undergrad ☐ Grad ☐
#5: Name: __________________________________________ Email: ________________________________ Undergrad ☐ Grad ☐
#6: Name: __________________________________________ Email: ________________________________ Undergrad ☐ Grad ☐
#7: Name: __________________________________________ Email: ________________________________ Undergrad ☐ Grad ☐
#8: Name: __________________________________________ Email: ________________________________ Undergrad ☐ Grad ☐

If you are listing more students, please include a separate sheet. Please print.

AGREEMENT
☐ As adviser of this MAA Student Chapter, I acknowledge the statements above and agree to be the point of contact should there be any questions regarding student memberships, local activities, and other requirements.

☐ The MAA occasionally allows select organizations to send mailings to our members. If you prefer not to have mailings sent to your postal address, please check this box.
☐ The MAA occasionally uses email to provide members with information about news from the world of mathematics, upcoming events, and special offers. If you prefer not to have mailings sent to your email, please check this box.
