## ANNOUNCEMENT OF OPENING USA Mathematical Olympiad Co-Editor-in-Chief

---

The American Mathematics Competitions program of the Mathematical Association of America offers a series of examinations for high school students, designed to build problem-solving skills, foster a love of mathematics, and nurture talented students across the United States. For students who perform exceptionally well, the final rounds at the high school level are the USA Mathematical Olympiad (USAMO) and the USA Junior Mathematical Olympiad (USAJMO). These competitions follow the style of the International Mathematics Olympiad: they consist of three problems each on two consecutive days, with an allowed time of four and a half hours both days.

The Editorial Board of the USA(J)MO is led by two co-Editors-in-Chief, who assemble their editorial board in consultation with the AMC Director and the MAA Board of Directors. The editorial board is responsible for producing the content of the relevant exams: a set of problems and the corresponding set of solutions for each contest. In addition, EiCs have an opportunity to influence the AMC program and its policies. The EiCs report to the AMC Director.

The appointment will begin with a one-year term as Editors-elect from July 1, 2021, until June 30, 2022. The co-Editor-in-Chief term will run from July 1, 2022 to June 30, 2025. EiCs receive a modest honorarium from the MAA.

Please submit your application to [hr@maa.org](mailto:hr@maa.org), including a current Curriculum Vitae; a letter of interest in the position, explaining your background with mathematics competitions; and a statement describing a strategy for assembling an editorial board that will enable expanded outreach of the USAMO program. In addition, please provide us with the names and contact information of two individuals whom we may contact regarding your application. Applications received by May 15, 2021, will receive full consideration, with review continuing until the position is filled.

For further information, please consult the website <https://www.maa.org/math-competitions> or write to AMC Director Béla Bajnok at [bbajnok@gettysburg.edu](mailto:bbajnok@gettysburg.edu).

The MAA is an Equal Opportunity Employer.
