## ANNOUNCEMENT OF OPENING AMC 10/12 Co-Editor-in-Chief

---

The American Mathematics Competitions program of the Mathematical Association of America offers a series of examinations for high school students, designed to build problem-solving skills, foster a love of mathematics, and nurture talented students across the United States and around the world. The initial rounds are the AMC 10 and 12 exams, open to students in grade 10 or below and 12 or below, respectively. These 25-question 75-minute multiple-choice examinations are taken by over 200,000 students nationwide and internationally.

The AMC 10/12 Editorial Board is led by two Co-Editors-in-Chief, who assemble their editorial board in consultation with the AMC Director and the MAA Board of Directors. The EiCs are responsible for directing their editorial boards in producing the content of the relevant exams: a set of problems and the corresponding set of solutions for four contests each year; this process requires mathematical knowledge, writing skills, an attention to detail, and leadership abilities. In addition, EiCs have an opportunity to influence the AMC program and its policies. The EiCs report to the AMC Director.

The appointment will begin with a term as Editor-elect from March 1, 2022, until June 30, 2022. The Co-Editor-in-Chief term will run from July 1, 2022 to June 30, 2026. EiCs receive a modest honorarium from the MAA.

Please submit your application to [hr@maa.org](mailto:hr@maa.org), including a current Curriculum Vitae; a letter of interest in the position, explaining your background with mathematics competitions; and a statement describing a strategy for assembling an editorial board that will enable expanded outreach of the AMC program. In addition, please provide us with the names and contact information of two individuals whom we may contact regarding your application. Applications received by December 15, 2021, will receive full consideration, with review continuing until the position is filled.

For further information, please consult the website <https://www.maa.org/math-competitions> or write to AMC Director Béla Bajnok at [bbajnok@gettysburg.edu](mailto:bbajnok@gettysburg.edu).

The MAA is an Equal Opportunity Employer.
