

THE MATHEMATICAL ASSOCIATION OF AMERICA
AMERICAN MATHEMATICS COMPETITIONS

Learning Mathematics Through Meaningful Problem Solving

57th Annual

Summary of High School Results and Awards

Examinations prepared by subcommittees
of the American Mathematics Competitions
and administered by the AMC office

2007 AMC contest dates:

AMC 8 - TUESDAY, November 14, 2006
AMC 10 & AMC 12 - TUESDAY, February 6, 2007
&/or WEDNESDAY, February 21, 2007
AIME - TUESDAY, March 13, 2007
or WEDNESDAY, March 28, 2007
USAMO - April 24-25, 2007

REPORT OF THE DIRECTOR

STEVEN DUNBAR

I. INTRODUCTION

I am extremely pleased to announce that this year approximately 230,000 students enrolled in the AMC 10/12 contests and a multitude of positive comments received from teachers once again confirmed that the Committee created examinations which were both exciting and challenging. Congratulations to all of you for continuing to recognize the fact the AMC 10 and 12 play a complementary role in supporting the mathematics curriculum at the high school level.

This summary includes a listing of results and awards associated with this year's AMC 10 and 12.

II. 2006 ENROLLMENT ANALYSIS AND STATISTICAL RESULTS

Our outstanding AMC Lincoln office staffers were once again able to process and mail the results and awards in a timely and efficient manner. The results for schools with American Invitational Mathematics Examination qualifiers were mailed in less than two weeks following the exam, and all other results were mailed during the following week. This is rather remarkable when one considers the extensive checks which are necessary to ensure the accuracy of the results.

We continue to send an ever increasing pool of contest managers their schools' results by email. If you are able to communicate via email and wish to be added to our data base, please send a message to "hstran@amc.unl.edu" as soon as possible.

In addition to the results and awards of the AMC 10/12, this summary contains an analysis of the results of the 2005 American Mathematics Contest 8 (AMC 8) as well as the 2006 American Invitational Mathematics Examination and the 2006 USA Mathematical Olympiad.

Once again, the AMC 10 and AMC 12 was available in French, Spanish, Braille and Large Print.

III. INTERNATIONAL PARTICIPATION

I am pleased to report that the exam was administered in Puerto Rico, Guam, Virgin Islands, the Marianna Islands, many USA embassy and military schools, and individual International schools. A list of these schools is found in this summary. Special recognition is given to the teachers abroad who provide an opportunity for students at US military bases and embassies to participate in the AMC 10/12.

The CAMC extends its appreciation to Professor Paul Charlebois who translates the exams into French for students in Canada. We are also grateful to Professor Maria de Losada and Mario Cruz from Bogota, Colombia for translating the AMC 10 and AMC 12 into Spanish for use in Puerto Rico as well as in the USA and Colombia. Special thanks to Professor Peter Shiue for translating the exams into Chinese for more than 300 schools in Taiwan that participated in the AMC 10/12 this year.

IV. 2007 CONTEST DATES, REGISTRATION AND FEES

There will again be two official dates for the AMC 10 & AMC 12. Please note that the contests are being held a week later than the two dates they were given in 2006.

Contest A will be held on the first Tuesday in February (February 6, 2007), Contest B will be given 15 days later, Wednesday, February 21, 2007 All rules and awards

Report of the Director, Continued

apply to both tests for all schools and students. Students will be allowed to take the exam booklets home with them the day of the contest.

The Registration cost for the 2006-2007 year has been raised one dollar from the fee in the 2005-2006 season. We have again included the shipping cost in with the Registration Fee. Registration plus shipping for one AMC A Contest is \$40 per school, if you register by December 15, 2006. One bundle of ten AMC 12 exams will also go up \$1, to \$16 and one bundle of ten AMC 10 exams go up to \$14. There will be an extra \$10.00 charge included with the Registration for the second contest (B) to cover 2-day shipping. Contest B will be shipped on February 7, 2007, the day after Contest A.

Materials for Contest A will be mailed in January of 2007. Please register by December 15, 2006 if possible. Completion of your registration as early as possible will be greatly appreciated by our office staff.

If you do not receive one of our many fall mailings, a current registration form will be available on our Web site. Please post our address: <http://www.unl.edu/amc>

V. NASSP'S SANCTION

The National Association of Secondary School Principals has placed this program on the NASSP National Advisory List of Contests and Activities for 2006-2007.

VI. THE 2006 AIME

A total of 22,636 students officially participated in the 24th American Invitational Mathematics Examination (AIME) which was held on Tuesday, March 7, 2006 or the "alternate" date, Wednesday, March 22, 2006. The comparable figure in 2005 is 12,476 students. The mean score on the AIME I was 2.71, and on the AIME II was 2.825, versus the 2.75 on the AIME I, and 2.43, on the AIME II, in 2005. A list of the students with a score of at least 6 on the 2006 AIME is found in this summary.

The 2007 AIME is scheduled for Tuesday, March 13, 2007 and the alternate date is Wednesday, March 28, 2007. Please note that the AIME II has been changed from a Tuesday to a Wednesday, to provide more flexibility in scheduling. To qualify for the AIME in the year 2007 a student must score 100 or more or be in the top 5% on the AMC 12 or score 120 or more or be in the top 1% of the AMC 10 participants. The AIME consists of 15 questions with integer answers. A student's score is the number of correct answers. There is no partial credit. The time allowed is 3 hours.

VII. THE USAMO

The USA Mathematical Olympiad (USAMO) was held on April 18-19, 2006 in each respective student's school. 430 students were invited to participate this year. This is 170 more than the 260 who were invited to participate in 2005, because we received a grant from the Art of Problem Solving to cover the costs associated with the additional number of students. All of the participants were chosen based on the selection criteria published in the AMC 10/12 and AIME Teachers' Manual. This summary contains a list of those participants as well as names of the USAMO Winners, and Honorable Mention.

The USAMO was once again administered over two days (4.5 hours each day). All papers were graded by the USAMO Committee, and by Mathematical Olympiad Summer Program staff members on April 21st, 22nd and 23rd. We are grateful to these mathematicians for their excellent work associated with this important task.

The top twelve USAMO students were honored in Washington, DC May 21st and 22nd, 2006 with elaborate ceremonies held at the headquarters of the Mathematical

Report of the Director, Continued

Association of America (MAA) and the National Academy of Sciences by invitation of the Director for Science, Office of Science and Technology Policy, Executive Office of the President, Dr. John Marberger. After further testing at the 2006 MOSP the top six students will be invited to serve on our 2006 International Mathematical Olympiad (IMO) team who will travel to Ljubljana, Slovenia, in July to compete against more than 80 other countries.

VIII. ACKNOWLEDGEMENT

The Committee acknowledges the contributions of many individuals and organizations for their assistance. We are indebted to the State and Canadian Provincial AMC Directors who provide assistance with the implementation of the AMC 10/12. Their tasks include contacting schools so that every student will have an opportunity to participate in the AMC contests, preparing a state/province summary of results and awards, and presenting awards. The names of the Directors are listed in this Summary.

IX. CONTRIBUTIONS OF THE LINCOLN STAFF

The contributions of the AMC Lincoln staff members to the fulfillment of the responsibilities associated with the entire exam process in a 'beyond the call of duty' manner is something to behold. Let us once again applaud Donita Bowers, Marsha Conley, Rachele Jensen, Linda McCormick, Joyce McNeil, Ruthann Royer, Sawsan Mohamed, Kay Michael and Janet Sylvester. This year we had UNL student help also: Nikki Bohl, Erin Johnson, and Gabe Smith. We are grateful to these staff members for their dedication to the AMC.

X. SPONSORS / CONTRIBUTORS / AMC COMMITTEE MEMBERS

We appreciate the continued support of all of our Sponsors and Contributors. Kudos go to the members of the CAMC, AMC 8, AMC 10, AMC 12, AIME, USAMO Subcommittees and Advisory Panel members who give so much of their time to the formulation of consistent rules of operation and examinations of superior quality. The leadership given by the Chairs of these committees, namely, Prof. Elgin Johnston (CAMC Chair), Ms. Bonnie Leitch (AMC 8), Prof. David Wells (AMC 12), Prof. Doug Faires (AMC 10), and Mr. Steven Blasberg (AIME) and Prof. Cecil Rousseau (USAMO) is especially noteworthy.

XI. CONTRIBUTIONS OF THE UNIVERSITY OF NEBRASKA

The operational location of the AMC has been at the University of Nebraska-Lincoln (UN-L) since 1970. The CAMC is grateful to Chancellor Harvey Perlman, Dean Richard Hoffman, and Prof. John Meakin in the UN-L Department of Mathematics, for their support.

XII. ADDITIONAL INFORMATION – INQUIRIES

Information regarding this summary, AMC publications and the implementation of the AMC 8, AMC 10, AMC 12, AIME and USAMO may be obtained via email (amcinfo@unl.edu), the AMC Web Page (<http://www.unl.edu/amc>), by telephone (800-527-3690) or by writing to the AMC Lincoln office at:

MAA American Mathematics Competitions,
University of Nebraska – Lincoln
1740 Vine St., Lincoln, NE 68588-0658

Inquiries concerning contest rules should be sent to the CAMC Committee Chair:

XIII. EXAMINATION DATES

The examination dates for the 2006-2007 school year are:

AMC 10 and AMC 12 – Tuesday, February 6, 2007

and/or – Wednesday, February 21, 2007

AIME – Tuesday, March 13, 2007

or – Wednesday, March 28, 2007

USAMO – April 24-25, 2007

NCTM National Convention - St Louis
Harold Reiter and Steve Dunbar talking to a teacher.

MESSAGE FROM THE CAMC CHAIR

On behalf of the Mathematical Association of America's Committee on American Mathematics Competitions, I want to thank the schools and teachers who took the time to administer the 2006 American Mathematics Contest 10 (AMC 10) and the 2006 American Mathematics Contest 12 (AMC 12). This year marked the 57th year that the American Mathematics Competitions have provided high quality mathematical competitions for United States high school students and for secondary students around the globe.

Many people work hard to make these exams possible. These include the State Contest Directors who make sure schools in their regions know about the exams; the outstanding staff in Lincoln, responsible for registration, printing, distributing, and scoring the exams, and communicating results; and the members of the AMC 10/12 Committee and AMC Advisory Panel who spend long hours composing problems, writing and rewriting problem statements and solutions, and monitoring the difficulty level of the exam. Special thanks are due Douglas Faires, the AMC 10 Chair, and David Wells the AMC 12 Chair, who coordinate the exam creation efforts. I also want to thank the students for giving up part of their day to participate in the AMC 10 or the AMC 12.

Many of the AMC 10 and AMC 12 participants did well enough to qualify for the American Invitational Mathematics Examination (AIME) and a small number of AIME students then qualified for the United States of America Mathematical Olympiad (USAMO). Although these exams are given to fewer students than participate in the AMC 10/12, the committees that create these exams work just as hard as the AMC 10/12 Committees. Thanks to David Hankin, the outgoing AIME Chair, and Cecil Rousseau, the USAMO Chair, for their efforts in coordinating the creation of high quality exams.

The mission of the CAMC is to promote interest in mathematics among K-12 students and to identify mathematically talented students through a series of mathematical exams. Thus, although the exams are designed to expose students to important mathematical ideas and give students a valuable problem solving experience, it is even more important that students find the exams challenging and fun. We hope that students enjoy not only taking the exams, but also preparing for the exams with teachers and other students, and discussing the answers and different solutions afterwards.

But the exams serve another purpose as well. Many of the AMC brochures and posters display the question "Can you think outside the box?" The reason for studying mathematics in school is not just to learn how to do the problems in a textbook. A second purpose is to learn techniques and gain the confidence to tackle new or unfamiliar problems. Many of our exam questions are designed to give students a chance to try their hand at problems that require them to apply their classroom knowledge in new situations and in different ways. And although students may not always succeed in such situations, they can grow mathematically by trying to solve such problems, and from follow up discussions after the exam.

We are always interested in ideas to help us better carry out our mission. The mathematics teachers in the schools are one of our most valued sources of ideas. We welcome any ideas you have that will help us to improve the AMC 10 and AMC 12 and help us to reach more students. In addition, we have a great need for high school teachers on the AMC Advisory Panel. If you are interested in contributing to our contests please contact me ehjohnst@iastate.edu, or visit the American Mathematics Competitions booth at next year's NCTM meeting in Atlanta.

Elgin H. Johnston

MESSAGE FROM THE AMC 10 CHAIR

The AMC 10 test was developed to provide a better experience in mathematical problem solving for students in the lower high school grades. In years prior to 2000, students in these grades had to take a test that included problems on topics such as logarithms and trigonometry, subjects that they had not yet studied. The AMC 10 examination contains only problems based on subject material that students in ninth and tenth grade have likely seen, while still providing them with a challenging experience.

Our goal for the AMC 10 has been to design the contests so that the average student can work on between 15 and 20 problems and get at least 10 of those correct. This would give an average score of between 72.5 and 85, since a student receives 6 points for each correct problem and 2.5 points for each unanswered problem.

The AMC 10 and AMC 12 tests have common problems, which has the advantage of permitting students taking the AMC 10 to compare their solutions with the students taking the AMC 12, and allows teachers to better identify excellent problem solvers at a young age. However, we are concerned that if we predictably have a large number of common problems on the exams, it might encourage younger students to take the AMC 12 before they are ready, since a larger proportion of students taking the AMC 12 qualify for the American Invitational Mathematics Examination (AIME). As a consequence, you will likely see an unpredictable fluctuation in the number of common problems from a minimum of about nine to a maximum of about thirteen.

A new policy for AIME qualifying was introduced beginning with the 2000 AMC examinations. Those students taking the AMC 12 and scoring over 100 qualify, as usual, as do those students scoring in the top 5% on the AMC 12 examination. This new policy is more equitable since it guards against the possibility of a particularly difficult examination, one on which the scores are uniformly lower than normal, skewing the number of AIME qualifiers.

Beginning with the 2004 contest we instituted a similar qualifying system for the students taking the AMC 10 contests. Students scoring in the top 1% of either AMC10 qualify for the AIME, as well as all those who score 120 or more on one of these contests. The requirement is set higher for AMC 10 qualifiers for two reasons:

- First, the AIME can be quite intimidating, and we do not want young students to be discouraged by poor performance on this examination.
- Second, we would like to ensure that any student qualifying for the AIME by virtue of placement on the AMC 10 would likely also qualify for the AIME in subsequent years when taking the AMC 12.

It could be very disappointing for a student to be an AIME qualifier in grade 10 but not in subsequent high school years. By restricting the number of AIME qualifiers from the AMC 10 to about the top 1%, we hope not to exclude any very good young students for whom the AIME would be an appropriate experience, but also not put students in a situation where they do not have much opportunity to succeed.

We are often asked which of the AMC examinations a good student in grade 9 or grade 10 should take. The answer probably depends as much on the personality of the student as on the mathematical ability and training of the student. Some students can take a very difficult examination, not score as well as they had expected, and take the experience as incentive for future study. The same experience for another student could be devastating and lead to a decreased interest in mathematical problem solving, and perhaps even in the study of mathematics. The latter situation should, of course,

Message from the AMC 10 Chair, Continued

be avoided at all cost. Personally, I would prefer to err on the side of caution. When advising students regarding the choice of contests, please keep in mind that the primary goal of all the American Mathematics Competitions contests is to provide students with a positive experience in mathematical problem solving. The awards that can sometimes accompany this experience are nice, but distinctly secondary.

We will continue to try to improve the experience of students taking the AMC, but the way in which we will do so depends significantly on the feedback that we receive from teachers giving the examinations and from students taking them. Please send me (fares@math.ysu.edu) or Elgin Johnston, the AMC Chair (ehjohnst@iastate.edu) any comments you have with regard to the AMC 10 examination.

MESSAGE FROM THE AMC 12 CHAIR

Two complementary goals of the AMC 12 are to provide a positive mathematical experience for all contestants and to identify those students who are sufficiently talented to benefit from participation in the AIME. To achieve those goals in a manner that is equitable to all participants is a daunting task that I share with the contest committee, a dedicated panel of problem posers and reviewers, and the staff at the AMC office. In creating two versions of the contest each year we face a multitude of challenges, which we overcome with varying degrees of success.

It is important for the first ten problems on each contest to be accessible to nearly every student. One of the most challenging aspects of putting a contest together is to create several problems that are both easy and original. During the past few years, we have been increasingly successful in meeting this challenge. Of the first ten problems on the 2006 AMC 12, the average 12A contestant answered 6.91 correctly and the average 12B contestant answered 7.29 correctly. The corresponding numbers for 2005 were 5.82 and 6.54.

It is also important that the later problems should challenge the very best students. It is especially critical that the standards for AIME qualification should be consistent from year to year. Due to the increased success rate for problems 1-10 on the AMC 12, the minimum AIME-qualifying score of 100 was significantly easier to achieve in 2006 than it has been in the past. The overall percentage of AIME qualifiers among AMC 12 contestants was 21.9%, compared to 11.8% in 2005 and 10.7% in 2004. This year's total represents 22.4% of all 12A contestants and 21.2% of all 12B contestants.

It should be noted that beginning in 2002 the number of points awarded for a blank response on the AMC 12 was increased from 2 to 2.5. As a result, students could qualify for the AIME by solving as few as 11 problems. Analysis of student performances since then reveals that the average number of blank responses by AIME qualifiers has increased from about 8 to 11. This trend, suggesting that many bright students are simply ignoring problems of even moderate difficulty, runs counter to our goals. For that reason, beginning in 2007, the reward for a blank response will decrease from 2.5 to 1.5 points. It should be emphasized that in making this change, we are not attempting to reduce the number of AIME qualifiers. Because we are simultaneously working to improve the overall success rate on the first ten problems, we expect that the number of contestants achieving the minimum qualifying score of 100 will be approximately 10% of all contestants, as it has been in recent years prior to 2006.

In order to maintain the quality of our contest problems, we need a large pool of problems to choose from each year. If you or anyone you know would like to help create the contests, please contact CAMC Chair Elgin Johnston (ehjohnst@iastate.edu). I would also welcome your comments on anything I have said here or on any aspect of the AMC 12 contests. I can be reached at dmw8@psu.edu or at 724-334-6749 (office) or 412-486-9478 (home).

QUOTATIONS

ARKANSAS

The practice book–math club package was superb. I had many underclassmen really studying this year, for a change! And the format 2 days helps our AB block scheduled students avoid missing one AP class at least.”

BRITISH COLUMBIA

“Your contribution to the advancement of excellence in High School Mathematics is noteworthy and greatly appreciated in our quest to inspire our students to strive for educational excellence.”

FLORIDA

“Great test and program. I like how the AMC 10/12 stretches even my best students. Even though the questions can be a little deflating at times, more times than not they motivate students to learn more.”

ILLINOIS

“The contest has some questions that everyone can solve which is nice. The more difficult questions are appealing to students who need to be challenged. The AMC 10/12 helps to develop our students mathematical skills which they need to compete successfully in the IL regional and state math meets. Thank you for the opportunity.”

INDIANA

“Students commented to us that there were more questions on this test that they were familiar with. It looks like you are working toward a good balance of problems. It helps when students see problems on the AHSME that they have been working on in class. But keep the challenging problems on the test also.”

KANSAS

“I think the test is wonderful for the students. It gets them out of the same-curriculum ACT-assessment stuff and into a broader range of thinking. I can have students who don't make good grades in math due to motivation take the test and see that they can compete nationally and are intelligent in math.”

MAINE

“I remember taking these tests 25+ years ago when I was in high school and I just think that it's great that it's still offered.”

MINNESOTA

“I like the challenge the contest offers the students. Each year we have a number of students who step up in an effort to score 100+ to qualify for the AIME contest. You are doing a very good job!”

NORTH CAROLINA

“This has been my first experience with the AMC 10. It has been well explained and the instructions clear and easy to understand. I look forward to receiving my students scores and hope to offer this test again next year.”

OREGON

“Thanks for interesting and challenging problems that use concepts from our courses but in a way that challenges students to think.”

Quotations, Continued

RHODE ISLAND

We love the contest and how it broadens students horizons. As teachers, we often feel the need to emphasize skill development at the expense of non-routine problem solving. The AMC 10/12 gives students a chance to experience those types of problems in a non-threatening setting.”

TEXAS

“Thank you so much for such a wonderful opportunity. My son is very excited and thrilled to have been selected to participate.”

“You are doing a good job of providing me with some good problems to motivate the students. Keep up the good work thank you again.”

“Because of the size and demographics of this 5A high school, only 29-40 students participate of 3600 student population. Yet, I would not give the students the opportunity of NOT having the AMC experience. It is important for students to be blessed with this competition.”

And from our students.....

ILLINOIS

“First of all, I wanted to thank you for another excellent AMC 12 competition. As usual, the problems were exquisitely written and the test was very enjoyable.”

PENNSYLVANIA

“As a senior who has just completed my final USAMO, I would like to thank you for the wonderful programs and contests that you put so much effort into. The AMC, AIME, and USAMO are all enjoyable, well-designed, fairly graded tests that motivate thousands of students to investigate the beauty of mathematics. Training for your competitions has done wonders for me. I could see myself gradually improving from year to year, and I am sure that many other students feel the same way.....I intend to be on an AMC/AIME/USAMO committee some day, to take the final step from problem solver to problem poser. Perhaps I will meet many of you then.”

TAIWAN

“A final thanks for arranging the USAMO so I could take it. I’ve always wanted the experience.”

Teacher, Ketti Heim

EDYTH MAY SLIFFE AWARDS

DISTINGUISHED HIGH SCHOOL MATHEMATICS TEACHING

The eighteenth set of winners of the Edyth May Sliffe Awards for Distinguished High School Mathematics Teaching was announced following the analysis of the 2006 American Mathematics Contest 12 (AMC 12). The twenty-four winners are listed on the next two pages.

These awards are the result of a bequest made to the Mathematical Association of America (MAA) by Edyth May Sliffe, a retired high school teacher of mathematics at Emeryville, California. She made this bequest for the purpose of giving awards to high school mathematics teachers whose teams have done well on the AMC 12. Edyth Sliffe wanted to do this because her students had always done very well on the AMC 12 and received various honors, but she as a teacher had never received any recognition. She had always felt that such teachers should receive some awards.

The award recipients were selected from nominations received from the top three students of each of the 60 highest scoring teams on the AMC 12. These students were asked to recommend a teacher who in their opinion was most responsible for their success on the AMC 12.

In addition to a cash prize, the award winning teachers receive: a letter of congratulations from the President of the MAA; a certificate signed by the President of the MAA, the Chair of the Committee on the AMC 12, and the Director of the American Mathematics Competitions; a Sliffe pin; and a free one-year MAA membership. Whenever possible these awards are presented to the winners during an award ceremony arranged by their school administrators.

This Award serves as an excellent illustration of how a single person, in this case, Edyth May Sliffe, can have a substantial positive influence nationwide by taking a decisive action to further a cause he or she strongly believes.

AMERICAN MATHEMATICS COMPETITION 8

The twenty-first Annual American Mathematics Contest 8 (AMC 8) was held on Tuesday, November 15, 2005, and it continued to be received with enthusiasm and support by an overwhelming number of schools, administrators, teachers and students. A total of 172,380 students from 2,629 schools registered for the examination.

The AMC 8 will continue to be a 25-question, 40-minute multiple choice exam that may be given during a regular mathematics class period. The Committee on the American Mathematics Competitions has approved the use of calculators on the 2006 AMC 8. The nature of the questions will not change from past tests. No problems on the test will require the use of a calculator, but students may have one available to use if they wish. High scoring students on the 2006 AMC 8 will be invited to participate in the 2007 AMC 10A & B and/or AMC 12A & B which are scheduled for TUESDAY, February 6, 2007 and/or WEDNESDAY, February 21, 2007.

Since the AMC 8 was centrally scored at the Office of the Director it was possible to obtain an enormous amount of data. Please note that the word "recorded" used below should be interpreted as indicating that the results are based on only the items that were mark sensed by the students. Some of the students failed to mark all items such as their grade and sex. The following represents some of the statistics relating to the examination:

TABLE III: 2005 AMC 8 NATIONAL STATISTICS

Number of Answer Forms received -	143,428
Number of schools sending in reports -	2,504
Number of students scoring 25 (a perfect paper) -	79
National student average -	9.835
Number of recorded female participants -	67,655
Number of recorded male participants -	73,275
Average of recorded female participants -	9.32
Average of recorded male participants -	10.34

Grade level average:

Grade	Number recorded	Average
≤5	2,014	8.05
6	14,268	8.16
7	48,418	9.37
8	76,877	10.52

Information regarding the implementation of the AMC 8 may be obtained from the American Mathematics Competitions at 800-527-3690 or on the AMC web site at: <http://www.unl.edu/amc>.

AMC 8 STUDENT AWARD RECIPIENTS

UNITED STATES

The students listed here are designated as National Student Award Recipients for achieving a perfect score of 25 on the 2005 AMC 8. They will receive an award consisting of a Certificate of Distinction and an award plaque.

G	Student	School	City	State
8	Sanket Shah	Randolph School	Huntsville	AL
8	Benjamin Barad	Mirman School	Los Angeles	CA

REGIONS FOR THE AMC 10 & AMC 12

Listed below are the eleven regions into which Canada and the U.S.A. are divided.

REGION

- 0 Connecticut, Maine, Massachusetts, New Hampshire, Pennsylvania, Rhode Island, Vermont
- 1 New Jersey, New York
- 2 Delaware, District of Columbia, Maryland, North Carolina, South Carolina, Virginia, West Virginia
- 3 Alabama, American Embassy and APO/FPO schools, Florida, Georgia, Puerto Rico, Virgin Islands
- 4 Indiana, Michigan, Ohio
- 5 Arkansas, Iowa, Kansas, Minnesota, Nebraska, North Dakota, Oklahoma, South Dakota, Wisconsin
- 6 Illinois, Kentucky, Missouri, Tennessee
- 7 Louisiana, Mississippi, Texas
- 8 Alaska, Arizona, Colorado, Guam, Hawaii, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, Wyoming
- 9 California
- 10 Canada - Alberta, British Columbia, Manitoba, New Brunswick, Nova Scotia, Ontario, Quebec, Saskatchewan

Loyola High School, Los Angeles, California

Backpacks set aside for the AMC 10/12A, Rob Eleuteri, contest manager.

NATIONAL SCHOOL AWARDS

COMMITTEE AND DONOR AWARD DESCRIPTIONS

In each of the eleven regions into which the United States and Canada are divided, the five schools with the highest team scores (sum of the highest three scores by participants) are recognized by Donor or Committee Awards.

- A. **Charles T. Salkind Memorial Silver Cup** — This silver cup, donated by the L.G. Balfour Company, Attleboro, MA, is awarded to the school with the highest team score (in any region).
- B. **William H. Fagerstrom Memorial Silver Cup** — This silver cup is awarded to the school with the second highest team score (in any region) and it is provided by the L.G. Balfour Company, Attleboro, MA..
- C. **Committee Bronze Cups** — In each of the regions in which a silver cup is not awarded the Committee on the American Mathematics Competitions provides a Bronze Cup to the school with the highest team score.

SCHOOLS NOT RECEIVING A CUP ARE ELIGIBLE FOR THESE AWARDS

- D. **CAMC Mathematics Books*** — In each of the eleven regions, five books are donated by the Committee on the American Mathematics Competitions to one school having a high team score.
- E. **W. H. Freeman Books*** — In each of the eleven regions, a set of books, donated by W.H. Freeman and Company, San Francisco is awarded to one school having a high team score.
- F. **Mathematics Magazine*** — In each of the eleven regions, a one-year subscription is donated by the Committee on the American Mathematics Competitions to one or more schools having a high team score.
- G. **Pedagoguery Award** -- Awarded to one school in each of the 50 states, US Territories, Military Schools abroad, and Canada with the "Most Improved" Team Score on the AMC 10, and AMC 12.

INTRAMURAL AWARDS

- 1. **Certificate of Honor** — This is awarded to schools with a team score of 400 or greater.
- 2. **Certificate of Merit** — This is awarded to schools with a team score of at least 300.

** Distribution of awards is arranged so that schools do not receive duplicates of awards made to them in prior years.*

A 313 St Marys Springs HS, Fond Du Lac

PHILIPPINES

A 385.5 Zamboanga Chong Hua HS,
Zamboanga City

Lincoln Southeast High School, Lincoln, Nebraska
Chris Gay, Contest Manager

NATIONAL STUDENT AWARDS

COMMITTEE AND DONOR AWARDS DESCRIPTIONS

- A. **Large Plaque** — A large plaque, donated by the Committee on the American Mathematics Competitions, is awarded to each student with a perfect score.
- B. **Small Plaque** — A small plaque, donated by the Committee on the American Mathematics Competitions, is awarded to the student with the highest score in each region in which there was no perfect score.
- C. **Mathematics Magazine*** — A one-year subscription to the *Mathematics Magazine*, donated by the Committee of the American Mathematics Competitions, is awarded to a maximum of four participants with high score in each of the eleven regions.
- D. **NCTM Book*** — A book, donated by the National Council of Teachers of Mathematics, is awarded to three high-scoring participants in each of the eleven regions.
- E. **Mu Alpha Theta Book*** — A book, donated by Mu Alpha Theta, is awarded to one participant with a high score in each of the eleven regions.
- F. **AMATYC Review*** — A one-year subscription to the *American Mathematical Association of Two-Year Colleges Review* is awarded to one student in each of the eleven regions.
- G. **CAMC Problem Book** — One *Problem Book* donated by The American Mathematics Competitions, is awarded to the top-scoring student in grade 9 or less in each of the eleven regions.

INTRAMURAL AWARDS

1. **AMC 10 School Winner Pin** — For each school making a report on three or more students the Mathematics Award Pin is awarded to the student with the highest score. No listing is made for this award.
2. **AMC 12 School Winner Pin** — For each school making a report on three or more students the Mathematics Award Pin is awarded to the student with the highest score. No listing is made for this award.
3. **AMC 10 Honor Roll of Distinction Pin** — The Honor Roll of Distinction Pin is awarded to the top 1% of all participating students.
4. **AMC 12 Honor Roll of Distinction Pin** — The Honor Roll of Distinction Pin is awarded to the top 1% of all participating students.
5. **Gold Medal** — The Gold Medal is awarded to participants who place first in their respective school for four consecutive years.
6. **Silver and Bronze Medals** — These medals are awarded to participants who place first in their school for three and two consecutive years, respectively. The names of these medal winners are listed in the Summary of Results and Awards published by the State Director.
7. **AMC 10/12 Certificate of Distinction** — A Certificate of Distinction is awarded to those students who qualify to take the American Invitational Mathematics Examination.
8. **AMC 10/12 Certificate of Achievement** — Awarded to students who score 100 or above in grade 9 & below on the AMC 12 or grade 8 & below on the AMC 10.

* *Distribution of awards, when possible, is arranged so that students do not receive duplicates of awards made to them in prior years.*

STUDENT DISTINGUISHED HONOR ROLL

UNITED STATES

AMC 12 A&B

This Student Distinguished Honor Roll includes AMC 12 A&B participants from United States Schools who scored 122.0 or above on the AMC 12A or 126.5 or above on the AMC 12B. It is based on 1% of the top scoring students. An Honor Roll Pin and a certificate is awarded to these contestants. The listing is by individual score in each region.

STUDENT DISTINGUISHED HONOR ROLL

UNITED STATES

AMC 10 A&B

This Student Distinguished Honor Roll includes AMC 10 A&B participants from United States Schools who score 130.0 or above on the AMC 10A or 132.0 or above on the AMC 10B.. It is based on 1% of the top scoring students. An Honor Roll Pin and a certificate are awarded to these contestants. The listing is by individual score in each region.

REGION 0

CONNECTICUT

A 144 9 A Rajagopalan, Choate Rosemary Hall, Wallingford, CT
B 144 10 J Gaston, South Windsor HS, South Windsor, CT

STUDENT DISTINGUISHED HONOR ROLL

CANADA

AMC 12A&B

This Student Distinguished Honor Roll includes AMC 12 A&B participants from Canadian Schools who score 122.0 or above on the AMC 12A or 126.5 or above on the AMC 12B. It is based on 1% of the top scoring students. An Honor Roll Pin and a certificate are awarded to these contestants. The listing is by individual score in each region.

STUDENT DISTINGUISHED HONOR ROLL

CANADA

AMC 10 A&B

This Student Distinguished Honor Roll includes AMC 10 A&B participants from Canadian Schools who score 130.0 or above on the AMC 10A or 132.0 or above on the AMC 10B. It is based on 1% of the top scoring students. An Honor Roll Pin and a certificate are awarded to these contestants. The listing is by individual score in each region.

STUDENT DISTINGUISHED HONOR ROLL

INTERNATIONAL

AMC 10 A&B

The AMC 10 A&B International Student Distinguished Honor Roll includes participants from International Schools who score 130.0 or above on the AMC 10 A or 132.0 or above on the AMC 10B. It is based on 1% of the top scoring students. An Honor Roll Pin and a certificate are awarded to these contestants. The listing is by individual score in each region.

STUDENT DISTINGUISHED HONOR ROLL

LATE - AMC 10/12 A&B

The AMC Late Student Distinguished Honor Roll includes participants from Schools who score in the applicable ranges as the regular Honor Roll, but did not participate on the contest date. It is based on 1% of the top scoring students. An Honor Roll Pin and a certificate is awarded to these contestants. The listing is by individual score in each region.

AMC 12 A&B

12A132.5 10 M. Avella, Zamboanga Chong Hua HS, Zamboanga City, Philippines
12A132.5 10 R. Tan, Zamboanga Chong Hua HS, Zamboanga City, Philippines
12B123 11 B. Wang, A C Reynolds HS, AshevilleNC

AMC 10 A&B

10A136 9 P. Hao, Zamboanga Chong Hua HS, Zamboanga City, Philippines
10A133.5 8 F. Choi, Zamboanga Chong Hua HS, Zamboanga City, Philippines
10A130 9 R. Koa, Zamboanga Chong Hua HS, Zamboanga City, Philippines

*Lincoln Northeast High School, Lincoln, NE

STUDENT HONOR ROLL

UNITED STATES

AMC 10 A&B

This Student Honor Roll includes AMC 10 participants from United States Schools who score 100 through 121.5 on the AMC 10A or 100 through 126.0 on the AMC 10B. A certificate is awarded to these contestants. The listing is by individual score in each region.

STUDENT HONOR ROLL

CANADA

AMC 12 A&B

This Student Honor Roll includes AMC 12 participants from Canadian Schools who score 100 through 121.5 on the AMC 10A or 100.0 through 126.0 on the AMC 10B. A certificate is awarded to these contestants. The listing is by individual score in each region and state.

REGION 10

ALBERTA

Edmonton, AB

120.5 12 B. Yu
113.5 11 H. Jeong
109 11 G. Holloway
107.5 11 C. Liu
102 12 C. Yang
100.5 12 H. Suk

Sir Winston Churchill HS, Calgary, AB

110 12 A. Krioutchkova

LATE, AMC 10/12 A&B

AMC 12 A&B

The AMC Late Student Distinguished Honor Roll includes participants from Schools who score in the applicable ranges as the regular Honor Roll, but did not participate on the contest date. It is based on 1% of the top scoring students. An Honor Roll Pin and a certificate is awarded to these contestants. The listing is by individual score.

STUDENT ACHIEVEMENT ROLL

UNITED STATES

AMC 10 A&B

This Student Achievement Roll includes AMC 10A and AMC 10B participants in grades 8 and below from the United States who score 90 or above and includes only those students not included on the Distinguished Honor Roll or Honor Roll. A certificate is awarded to these contestants. The listing is by individual score in each region.

REGION 0

CONNECTICUT

- A 99 8 K. Kulas, Glastonbury HS, Glastonbury, CT
A 96 8 Z. Segala, Fairfield Ludlowe HS, Fairfield, CT
A 95 7 D. Tobias, Glastonbury HS, Glastonbury, CT
A 94.5 6 L. Xiong, Danbury Math Acad, WCSU, Danbury, CT
A 94.5 8 R. Hu, Fairfield Ludlowe HS, Fairfield, CT
A 94.5 8 V. Ravishanker, Haddam-Killingworth HS, Higganum, CT
A 93.5 8 H. Kim, Hall HS, West Hartford, CT
A 90.5 8 H. Grehan, Convent of Sacred Heart Sch, Greenwich, CT

MASSACHUSETTS

- A 99.5 8 S. Bouchard, The Pike School, Andover, MA
A 99 8 L. Grinberg, Belmont HS, Belmont, MA
A 99 8 T. Rodrig, Lexington HS, Lexington, MA
A 99 8 S. Ravi, John Glenn MS, Bedford, MA
A 97.8 8 J. Kim, Groton School, Groton, MA
B 95.5 8 B. Davidson, Hudson HS, Hudson, MA
A 97 8 A. Smith, Concord Carlisle HS, Concord, MA
B 97 7 S. Stratton, McCall MS, Winchester, MA
A 95.5 8 J. Chang, Belmont HS, Belmont, MA
A 95.5 8 J. Kim, Groton School, Groton, MA
A 95.5 7 L. Michael, John Glenn MS, Bedford, MA
A 95 8 A. Anton, Groton School, Groton, MA
A 94.5 8 S. Tsai, Marlborough HS, Marlborough, MA
B 94.5 8 D. Zhang, McCall MS, Winchester, MA
A 92.5 8 J. Bang, Groton School, Groton, MA
A 92 8 W. Choi, Groton School, Groton, MA
A 91 8 C. Rauh, The Pike School, Andover, MA
A 91 7 M. Chiu, John Glenn MS, Bedford, MA

NEW HAMPSHIRE

- A 91 8 B. Wilson, The Derryfield School, Manchester, NH

PENNSYLVANIA

- A 98 7 D. Feffer, State College Area HS, State College, PA
A 94.5 8 C. Wild, State College Area HS, State College, PA
A 92.5 8 A. Guyer, Probe Gifted Program, West Chester, PA
A 92 8 C. Cocroft, Friends Select School, Philadelphia, PA
B 92 8 A. Wang, Hatboro-Horsham SHS, Horsham, PA

AIME - AMERICAN INVITATIONAL MATHEMATICS EXAMINATION

MESSAGE FROM THE AIME CHAIR

Congratulations to those who qualified to participate in the AIME.

One of the purposes of the AIME is to aid in the selection process for qualification for the USAMO. However, those of us who work on constructing the AIME believe that it has other purposes which are at least as important as USAMO selection. It is our hope that the AIME provides an interesting, enjoyable, challenging, motivational and educational experience for all those who take it.

To provide a proper transition between the AMC and the USAMO, the difficulty of the problems must encompass a broad range. It is our goal to include problems of sufficient difficulty so that even the top few high school problem solvers will consider it a worthy challenge to get a score as high as 14 or 15. At the same time, we include several problems whose difficulty is equivalent to some of those in the middle of the AMC 12, so that all qualifiers have a reasonable chance to correctly answer at least a few problems.

As is the case with many problems in mathematics, most of the problems can be solved in several different ways. Those students who focus their efforts on the first five problems should note that often these problems will succumb to perseverance and application of elementary principles. These students will be rewarded when they take the time to read the solution manual to find that each of these problems has an elegant (and quick) solution as well.

In fact, the solution booklet should prove rewarding for all contestants, even the best. We try to include alternate approaches, elegant shortcuts, and glimpses into areas of mathematics that competitors may then be motivated to explore.

It is our hope and belief that the number of high school students around the nation who have become aware of the pleasures of solving challenging math problems is growing. It is our wish that they and their teachers find the AIME a source of well constructed and worthwhile problems and a means of improving their problem solving skills. To continue to improve, students should attempt problems that are at the limit of their mathematical abilities. Decide if such problems are at the beginning, the middle or the end of the AIME, or perhaps on the USAMO, and work on those.

A debt of gratitude is owed to the panelists who contribute problems and suggestions to make the AIME as good as it is. Particular thanks must be given to the members of the AIME Committee, a group whose current members are Jacek Fabrykowski, Chris Jeuell, Jonathan Kane, and John Lawlor. It is they who deserve the credit for the quality of the AIME exam. Thank you too to the staff in Lincoln who make all of the AMC Contests and events possible.

Happy solving.

Steven Blasberg
1615 Loch Lomond Lane
San Jose, CA 95129

AIME – SCORES OF 6+

UNITED STATES

The **Twenty-fourth** American Invitational Mathematics Examination (AIME) was held on **March 7, 2006** or **March 22, 2006**. A total of **22,636** students officially participated in the examination. The AIME is a fifteen question examination. A list (by score) of the students from the United States who scored at least 6 out of 15 on the AIME is given below.

REGION 0

CONNECTICUT

- 13 11 **J. Horowitz**, Simsbury High School, Simsbury, CT
- 13 11 **D. Shen**, The Taft School, Watertown, CT

AIME – SCORES OF 6+

CANADA

The Twenty-fourth American Invitational Mathematics Examination (AIME) was held on March 7, 2006 or March 22, 2006. A total of 22,636 students officially participated in the examination. A list (by score) of the Canadian students who scored at least 6 out of 15 on the AIME is given below.

REGION 10

ALBERTA

- 9 11 **L. Zhang**, Western Canada HS, Calgary, AB
- 8 12 **Y. Yang**, Western Canada HS, Calgary, AB
- 6 12 **B. Yu**, Old Scona Academic HS, Edmonton, AB
- 9 12 **A. Krioutchkova**, Sir Winston Churchill HS, Calgary, AB
- 6 11 **D. Li**, Sir Winston Churchill HS, Calgary, AB
- 6 10 **M. Wong**, Tempo School, Edmonton, AB

BRITISH COLUMBIA

- 12 11 **S. Karp**, Lord Byng SS, Vancouver, BC
- 12 11 **M. Johnson**, St Johns School, Vancouver, BC
- 9 12 **Y. Sono**, St Georges School, Vancouver, BC
- 9 12 **F. Barekat**, Sutherland SS, N Vancouver, BC
- 9 9 **D. Shi**, Windermere SS, Vancouver, BC
- 8 8 **J. Zhou**, Burnaby North SS, Burnaby, BC
- 8 11 **F. Meng**, Burnaby South HS, Burnaby, BC
- 8 10 **A. Ebtekar**, Port Moody Sr SS, Port Moody, BC
- 8 10 **E. Liu**, Sir Winston Churchill SS, Vancouver, BC
- 8 11 **J. Chen**, St Georges School, Vancouver, BC
- 8 12 **A. Zhang**, St Georges School, Vancouver, BC
- 7 12 **A. Kostin**, David Thompson SS, Vancouver, BC
- 7 11 **S. Qu**, Dover Bay SS, Nanaimo, BC
- 7 11 **H. Lee**, Gleneagle SS, Coquitlam, BC
- 7 9 **C. Lee**, Pinetree Secondary, Coquitlam, BC
- 7 11 **J. Li**, Pinetree Secondary, Coquitlam, BC
- 7 10 **J. He**, Seaquam SS, Delta, BC
- 7 11 **S. Guo**, Sir Winston Churchill SS, Vancouver, BC
- 7 11 **D. Peng**, St Georges School, Vancouver, BC
- 6 12 **D. Chan**, Bodwell HS, N Vancouver, BC
- 6 11 **O. Tian**, David Thompson SS, Vancouver, BC
- 6 11 **R. Legassicke**, Dover Bay SS, Nanaimo, BC
- 6 12 **D. Trudeau**, Dover Bay SS, Nanaimo, BC
- 6 12 **J. Choi**, Handsworth SS, N Vancouver, BC
- 6 12 **K. He**, Magee SS, Vancouver, BC
- 6 12 **S. He**, Magee SS, Vancouver, BC
- 6 12 **O. Rippel**, Magee SS, Vancouver, BC
- 6 12 **J. Fox**, Moscrop SS, Burnaby, BC
- 6 12 **S. Lin**, Moscrop SS, Burnaby, BC
- 6 11 **A. Chan**, Pinetree Secondary, Coquitlam, BC
- 6 11 **K. Li**, Port Moody Sr SS, Port Moody, BC
- 6 12 **M. Li**, Sir Winston Churchill SS, Vancouver, BC
- 6 11 **S. Liu**, Sir Winston Churchill SS, Vancouver, BC
- 6 11 **S. Lu**, Sir Winston Churchill SS, Vancouver, BC
- 6 11 **T. Lee**, Vancouver College, Vancouver, BC
- 6 10 **T. Kato**, West Vancouver SS, W Vancouver, BC
- 6 10 **H. Yang**, West Vancouver SS, W Vancouver, BC

MANITOBA

- 612Y. **Feng**, St John's-Ravenscourt Sch, Winnipeg, MB
- 6 12 **X. Li**, St John's-Ravenscourt Sch, Winnipeg, MB
- 6 12 **Y. Mu**, St John's-Ravenscourt Sch, Winnipeg, MB

NEW BRUNSWICK

- 9 12 **W. Ye**, Fredericton HS, Fredericton, NB
- 8 10 **J. Kileel**, Fredericton HS, Fredericton, NB
- 6 11 **S. Yoo**, Fredericton HS, Fredericton, NB

NOVA SCOTIA

- 6 11 **E. Macaulay**, Halifax Grammar School, Halifax, NS

ONTARIO

- 14 12 **Y. Zhao**, Don Mills CI, Don Mills, ON
- 12 11 **L. Fei**, Don Mills CI, Don Mills, ON
- 12 8 **J. Schneider**, University of Toronto Schs, Toronto, ON
- 11 12 **P. Shi**, Sir John A Macdonald CI, Toronto, ON
- 10 11 **G. Tsang**, Crescent School, Toronto, ON
- 10 11 **A. Guo**, O'Neill Cvi, Oshawa, ON
- 10 11 **J. Jiang**, Olympiads Sch-Tutoring Ctr, Scarborough, ON
- 10 12 **V. Krakovna**, Western Tech & Comm Sch, Toronto, ON
- 10 12 **R. Peng**, Western Tech & Comm Sch, Toronto, ON
- 9 10 **Y. Zhu**, Albert Campbell CI, Scarborough, ON
- 9 10 **D. Dziabenko**, Don Mills CI, Don Mills, ON
- 9 11 **Y. Song**, Don Mills CI, Don Mills, ON
- 9 12 **A. Wice**, Leaside HS, Toronto, ON
- 9 12 **J. Fu**, Olympiads Sch-Tutoring Ctr, Scarborough, ON
- 9 12 **Y. Hu**, Sir John A Macdonald CI, Toronto, ON
- 9 11 **T. Wan**, Stephen Leacock CI, Agincourt, ON
- 9 11 **K. Huynh**, University of Toronto Schs, Toronto, ON
- 9 11 **A. Kong**, Vincent Massey SS, Windsor, ON
- 9 12 **C. Liang**, Waterloo CI, Waterloo, ON
- 9 10 **A. Remorov**, Waterloo CI, Waterloo, ON
- 8 11 **H. Chang**, A B Lucas SS, London, ON
- 8 12 **R. Huang**, Albert Campbell CI, Scarborough, ON
- 8 12 **C. Ye**, Columbia Int'l College, Hamilton, ON
- 8 10 **P. Chen**, Glenforest SS, Mississauga, ON
- 8 12 **B. Deng**, Jarvis CI, Toronto, ON
- 8 11 **S. Fu**, Jarvis CI, Toronto, ON
- 8 12 **S. Zhang**, Jarvis CI, Toronto, ON
- 8 11 **A. Jiang**, Oakville Trafalgor HS, Oakville, ON
- 8 12 **B. Lee**, University of Toronto Schs, Toronto, ON
- 8 12 **Y. Wong**, University of Toronto Schs, Toronto, ON
- 8 11 **K. Zhang**, Vincent Massey SS, Windsor, ON
- 8 12 **L. Jia**, Waterloo CI, Waterloo, ON
- 8 11 **M. Nica**, Waterloo CI, Waterloo, ON
- 7 11 **Y. Zhou**, Albert Campbell CI, Scarborough, ON
- 7 12 **S. Pitis**, Don Mills CI, Don Mills, ON
- 7 11 **Z. Su**, Jarvis CI, Toronto, ON

U.S.A. MATHEMATICAL OLYMPIAD

QUALIFIERS FOR 2006

UNITED STATES

The Thirty-fourth U. S. A. Mathematical Olympiad (USAMO) was held April 18 and 19, 2006. A total of 430 AIME participants from 265 schools were invited to take the examination on the basis of the criteria indicated in the AMC 10/12 Teachers' Manual. See also the Report of the Director in this Summary.

Jason Trigg	12	Unionville High School	Kennett Square	PA
Bohua Zhan	11	West Windsor-Plainsboro High School - S	Princeton Junction	NJ

The top twelve students and their parents are invited to attend the Olympiad Awards Ceremony which is held annually in Washington, D.C.

BALLES AWARDS

Robert P. Balles has established an award that will honor the student participants in the annual International Mathematical Olympiad (IMO) with a \$1,000 Series I U.S. Savings Bond. Each Series I U.S. Savings Bond features a prominent American who has contributed to the history of the country. Appropriately, this particular denomination features Albert Einstein.

Robert P. Balles is a lifelong student of mathematics, former community college instructor, and retired businessman. He is an alumnus of Fordham University, Harvard University, and California State University. The MAA gratefully thanks Mr. Balles for his generosity in the recognition of the six extraordinary student mathematicians who compete annually on behalf of this country against the rest of the world's student mathematical power.

USAMO CEREMONIES

2005 Winners in Washington, D.C.

From left: Zhou Fan, Yi Sun, Eric Price, Prof. Steven Dunbar AMC Director, Hyun Soo Kim, Brian Lawrence, Robert Cordwell, Rishi Gupta, XX, Albert Ni, Yufei Zhao, Sherry Gong.

2006 Winners in Washington, D.C.

2005 INTERNATIONAL MATHEMATICAL OLYMPIAD

U.S.A. International Mathematical Olympiad Team

From Left: Zuming Feng, IMO Coach, Brian Lawrence, Thomas Mildorf, Sherry Gong, Robert Cordwell, Hyun Soo Kim, Eric Price, and Melanie Wood, Assistant IMO Coach.

The 46th International Mathematical Olympiad (IMO) was held July 4 - July 18, 2005 in Merida, Mexico. The International Mathematical Olympiad (IMO) is the pre-eminent mathematical competition for high-school age students from around the world. There were 513 competitors from 93 competing countries, making this the largest IMO ever. The IMO consists of solving 6 extremely challenging mathematical problems in a 9-hour competition administered over two days. More information about the 46th International Mathematical Olympiad is at:

<http://erdos.fciencias.unam.mx/index.htm>.

The U.S.A. team finished second overall among countries, with 213 total points. (China finished first overall with 235 points, Russia 3rd with 212 points, Iran fourth with 201, Korea fifth with 200, etc.) This was the also the second best medal collection, just behind China.

This is an extraordinarily strong performance by the U.S.A. team. Congratulations to Team Leader Zuming Feng and Deputy Leader Melanie Wood for preparing the team and presenting their solutions to the judges.

The team members finished as follows: Robert Cordwell - 36 points, Gold Medal (Manzano High School, Albuquerque, NM); Sherry Gong - 28 points, Silver Medal (Philips Exeter Academy, Exeter, NH); Hyun Soo Kim - 27 points, Silver Medal (Academy for the Advancement of Science and Technology, Hackensack, NJ); Brian Lawrence: 42 points, (perfect score) Gold Medal (Montgomery Blair High School, Silver Spring, MD); Thomas Mildorf - 39 points, Gold Medal (Thomas Jefferson High School of Science and Technology, Alexandria, VA); Eric Price: - 41 points, Gold Medal (Thomas Jefferson High School of Science and Technology, Alexandria, VA)
