

# MAA

MATHEMATICAL ASSOCIATION OF AMERICA

## Join the MAA Community

Whether you are a college professor or a high school teacher, a doctoral candidate or an undergraduate, an applied mathematician or simply a fan of mathematics, MAA has something for you.

### Participate.

Attend a meeting. Organize a session. Suggest a workshop. Submit an article. Join a committee. Step into a mathematical community that promotes learning through a rich networking and the exchange of ideas. Involvement is the hallmark of MAA membership. We welcome every member and make it easy to participate in a wide variety of collegial activities.

### Investigate.

Focus on your own specialty. Exchange ideas with colleagues worldwide. Broaden your exposure to other disciplines. MAA supports the scholarship of teaching and the full spectrum of mathematical disciplines. MAA membership also opens the door to joining special interest groups, from mathematics and the arts, to quantitative literacy and instruction using the web.

### Educate.

Refresh your teaching with new techniques. Share favorite lessons. Encourage student participation in math competitions. MAA is all about the undergraduate mathematics curriculum. Recognizing that math is a core skill, we integrate it, present it, and explain it. MAA develops curriculum and provides a wealth of resources for better teaching.

The MAA provides members with these valuable benefits:

- Access to MAA's World Renowned Publications
- Automatic Enrollment in one of MAA's 29 Geographical Sections
- Access to MAA's Monthly E-Newsletter
- Professional Development
- Exclusive Online Resources
- Public Awareness & Appreciation
- Networking Opportunities
- Employment Services
- Discounts on National Meetings

For nearly 100 years the Mathematical Association of America has provided its members with opportunities to participate in the math community, investigate new happenings in mathematics, and hone their skills as they educate at the undergraduate level.

To find out more about the MAA or join our mathematical community, contact us at 800.331.1622 or [www.maa.org](http://www.maa.org).

## Participate. Investigate. Educate.
