Contents

Introduction 1

An Industrial Mathematics Program, George Corliss 5

Source of Problems: Industrial Contacts, Robert Borrelli 25

Panel Discussion Following “Industrial Contacts” 39

Course Integration, George Corliss 47

The Consortium for Mathematics and Its Applications (COMAP), Paul Campbell 55

Program Management, Martha Siegel 67

Project Deliverables I, Robert Borrelli 81

Project Deliverables II, Tom Davis 93

Using Projects from Industry to Teach Mathematics and Statistics to Liberal Arts Majors, Daniel Maki 99

Mathematical Modeling in ICIC Projects, Robert Fraga 105

Appendix: A Sample HMC Report 119
