

MEMBERSHIPS

Membership for a Life in Mathematics

The MAA is, above all else, a community of individuals who care for one another and share a passion for mathematics. It is a place to connect with others, develop your chosen profession, advance the teaching and learning of mathematics, and make a difference in the lives of others. From our members...

MAKE CONNECTIONS →

“Over the years, I have come to rely on the MAA and fellow members for inspiration in teaching techniques, creative ideas for Math Club students and beyond, information about mathematics in the broader community... and connecting with a variety of colleagues - different ages, stages, backgrounds but ALL who share my same passion for math.”

Trisha Moller

Moravian College, 20 year member

BUILD YOUR CAREER →

“I rely on the MAA and fellow members for suggestions which can be used in my teaching. Of late, that has been through COVID-induced ZOOM happy hour exchanges and the daily All Members Digest in my in-box each morning. I have found my membership in the MAA to be a valuable investment in my career and in my professional development.”

John C. Fay

Chaffey College, 39 year member

BE IMPACTFUL →

"I served on an MAA committee on the impact of computing in mathematics courses and later chaired the committee that developed the Advanced Placement course in computer science."

Stephen Garland

Dartmouth College, 60 year member

JOIN US →

"I would not be where I am in my professional career if it were not for the support of the MAA community. I've received more from the MAA than I've contributed, but I look forward to giving more in the future. Even if you find yourself really busy now, don't let this discourage you from becoming a member. Even from the sidelines I have benefitted so much."

Thao-Nhi Luu

Anne Arundel Community College, 3 year member
