Wednesday, July 31, 6:00 PM - 6:30 PM

Organizers: Dr. Diana Cheng and Rachel Schmitz

Join SIGMAA Sports members as they create a dance by rolling a die (to select a geometric transformation named) and picking a card (to select a body part).

For example: the dice roll could say "rotate" and the body part could be "shoulder" so the participant would find a movement that involves rotating the shoulder. Participants would do multiple iterations of this and have a full dance using the transformations.
