The MAA is pleased announce two poster sessions that will be held virtually at MAA MathFest 2021. To submit an abstract go to www.maa.org/mathfest/abstracts and follow the instructions found there. The deadline for submission of abstracts is May 21, 2021. Early submissions are encouraged.

**Title:** MAA Outreach Poster Session  
**Description:** The MAA Outreach Poster Session will provide the opportunity for program directors to share the amazing work they have done with students from elementary school through higher education. We welcome posters from all kinds of projects: math teacher circles, math summer camps, mentoring programs, research experiences and more! This session serves as a way to not only highlight the great work of community members working on outreach projects but to also offer ideas to others who struggle with engaging their students. Have an idea for a math program? Come learn from experienced outreach program directors! Also learn about funding opportunities through MAA grants programs.  
**Organizers:**  
Rachelle DeCoste, Tensor Women and Mathematics, decoste_rachelle@wheatoncollege.edu  
Candice Price, cprice@smith.edu, Tensor SUMMA  
Nancy Neudauer, nancy@pacificu.edu, Dolciani Mathematics Enrichment Grant

**Title:** PosterFest 2021: Scholarship by Early Career Mathematicians  
**Description:** This poster session and networking event provides an informal opportunity for early career mathematicians to present and discuss their scholarly activities (such as: expository work, preliminary reports, scholarship of teaching and learning, and research reports). Nontenured faculty and graduate students are encouraged to apply. Undergraduate submissions will not be accepted. Questions regarding this session should be sent to the organizers.  
**Organizers:**  
Holly Attenborough, University of Wisconsin-Platteville, attenborough@uwplatt.edu  
Lisa Driskell, ldriskel@coloradomesa.edu, Colorado Mesa University  
**Sponsor:** The MAA Committee on Early Career Mathematicians
