

Unraveling Complex Systems

Mathematics Awareness Month April 2011

www.mathaware.org

Sponsored by the Joint Policy Board for Mathematics: American Mathematical Society, American Statistical Association, Mathematical Association of America, Society for Industrial and Applied Mathematics.

Jon Bohlin, Eystein Skjerve, and David W. Ussery, "Analysis of Genomic Signatures in Prokaryotes Using Multinomial Regression and Hierarchical Clustering," *BMC Genomics* 2009, 487. DOI: 10.1186/1471-2164-10-487. Stein Marvold created the diagram using the statistical package R. The figure depicts comparisons between microbial genomes and in that sense truly shows the beauty and complexity of microbial evolution.
